Learning Management System (LMS) FAQs

Q: Are there any regulatory issues? (HIPAA, ADA, etc.)
A: FERPA protected data exists inside the LMS; the LMS should comply with ADA standards.

Q: Do the users have any unique requirements? Examples: mobile use, support for non-PC computers, disconnected data synchronization, etc.
A: Given students’ increasing reliance on mobile devices, the LMS should be able to deliver content to mobile devices and be device agnostic.

Q: Will the project require access to be made available to clients outside WUSTL?
A: Yes, on occasion, guest lecturers will need access. Some executive education students do not currently use the WUSTL Key identity system.

Q: Does the system create or capture information not already available in any other system?
A: Yes, Faculty and staff create content.
