Patrons gather at Bloom Caf? run by a local nonprofit agency that trains people with disabilities to work in the restaurant industry.

Interdepartmental Group Highlights Digital Accessibility at WashU

On Thursday, May 17th, WashU IT and the WashU community at large celebrated the seventh annual Global Accessibility Awareness Day (GAAD). We want to mark this occasion by telling you about WashU IT's partnership with other departments to develop practices that ensure we build accessibility into our tools and services.

Shared IT Services Update
What's Happening with SITS

Shared IT Services Debuts New Migration-Focused Web Page

This month, Shared IT Services unveiled a new landing page to help customers and staff alike be able to answer the question, "What's happening with SITS?"

The landing page, which acts as a first stop for information regarding the program and migrations, still has all of the great information that existed on the website previously – just organized in a new way to help address immediate customer and staff questions.

Let's Stay Connected

The Shared IT Services (SITS) program continues to move forward. Unit migrations to SITS remains a top priority of the Office of the Chief Information Officer and Vice Chancellor of IT at Washington University in St. Louis.

Remind Me, What is SITS?
You may recall, the plan to move to integrated Shared IT Services for end user and infrastructure technology at the university started back in December 2014 when university leadership, including the IT Executive Committee, the Deans and Washington University School of Medicine (WUSM) Executive Faculty, approved funding for this multi-year program.

We'll send this bimonthly digest to keep you in the loop.

Passport: A World of Collaborative Tools at Your Fingertips

WashU IT's Passport campaign is coming soon! Later this year, we will debut a campaign in which we highlight tools that empower the ingenuity and productivity of our faculty and staff. Passport will emphasize integrated communication and collaboration tools that are currently available but underutilized by our community. At present, these tools include Box, Forms, Teams, OneDrive, OneNote, and Skype for Business, and this list will likely grow as new connections become apparent.

Spring 2018 Town Hall Recap

The slide presentation and video replay of the Spring 2018 Technology Town Hall meeting are available now on the Office of the CIO website (click here).

Vice Chancellor for IT and CIO John Gohsman opened the event reviewing the progress our university has made in laying a solid technology foundation for advanced IT. Then presenters from across campus provided updates on major university projects, including: redefining common IT with the Shared IT Services project, improving research outcomes with the Research Storage Project pilot, improving patient care with the Epic implementation, enhancing academic success with the learning management system implementation, and more.

## Vice Chancellor and CIO Resigns Role

Vice Chancellor for Information Technology and Chief Information Officer John Gohsman will be leaving Washington University in June to assume the position of vice president for information technology and chief information officer at the University of Notre Dame.

John has accomplished much during his time at WashU. Under his leadership, the university has engaged in key initiatives, including EPIC and MyDay, that will help to advance the university's clinical, research and academic missions.

University leadership will share more on the IT leadership transition as information becomes available.

Congratulations to our Graduating STS Students!

WashU IT's Student Technology Services (STS) office hosted a reception on Friday, May 18 to honor the accomplishments of our graduating students. Students and their families arrived throughout the day to celebrate with STS staff members.
